Structure

Integrated Care System

Integrated care systems (ICSs) '*Leicester, Leicestershire and Rutland ICS*' are partnerships that bring together NHS organisations, local authorities and others to take **collective** responsibility for:

- **planning and delivering** joined up health and care services
- **improving health and reducing inequalities** across geographical areas

The aim is to improve the lives of people who live and work in their area.

The 2022 Health and Care Act formalised ICSs as legal entities with statutory powers and responsibilities, previously being informal.

Statutory ICSs comprise two key components:

- Integrated Care Board '*NHS LL&R ICB*'
- Integrated Care Partnership '*LL&R Health and Wellbeing Partnership*'

Integrated Care Board

Integrated care boards (ICBs): statutory bodies that are responsible for **planning and funding** most NHS services in the area

The role of ICB is to develop a **plan** to meet the health needs of the population and to arrange and manage the budget for the provision of NHS services

LLR ICB 5 Year Forward Plan - Areas of **focus** include but not limited to:

- Mental health and dementia
- Integrated health and social care teams
- Improving pathways for elective care
- Management of long- term conditions
- ❖ There is an overriding focus on **prevention**

Members of the ICB are senior leaders from NHS organisations and local authorities in Leicester, Leicestershire and Rutland. The ICB has oversight of the whole health system, sets the strategic direction and works jointly with the Health and Wellbeing Partnership to agree what needs to be done to meet the priorities for the ICS.

Integrated Care Partnership

Integrated care partnerships (ICPs): statutory committees jointly formed between the ICB and a broad set of system partners (including local government, the voluntary, community sector, NHS organisations and others).

Concerned with improving the care, health and wellbeing of the population.

The ICP is tasked with developing a **strategy** to address the health, social care and public health needs of their system, and being a forum to support partnership working.

LLR H&W Strategy key areas of focus:

- Reducing health inequalities
- Preventing illness and helping people to stay well
- Championing integration
- Fulfilling our role as Anchor organisations

Additionally for 2022-24:

- Coordinated action on the Cost- of- Living crisis
- Making it easier for people to access the services they need

Linkage

- The ICB and local authorities will have to have regard to ICP strategies when making decisions
- The ICB and ICP will also have to work closely with local Health and Wellbeing Boards (HWBs) as they have the experience as ‘place-based’ planners,
- The ICB will be required to have regard to the Joint Strategic Needs Assessments and Joint Local Health and Wellbeing Strategies (JHWSs) produced by HWBs.

Health and Wellbeing Board

The Rutland Health and Wellbeing Board (HWB) is a **formal statutory committee of the local authority**.

Aim: improve the health and wellbeing of our local population and reduce health inequalities.

Statutory duty: with the Integrated Care Board (ICB) to produce:

- Joint strategic needs assessment
- Joint health and wellbeing strategy

Chair: Portfolio Holder for Health, Wellbeing and Adult Care.

Membership: includes representation from the local authority, health, public health, police and from the Voluntary and Community Sector.

Rutland as a **Place** falls within the wider health and care footprint of the Leicester, Leicestershire and Rutland (LLR) Integrated Care **System** (ICS)

Joint Health and Wellbeing Strategy: The Rutland Based Plan 2022-2027

Vision: Nurture safe, healthy and caring communities in which people start well and thrive together throughout their lives

The strategy has seven priority areas for action:

Rutland Health and Wellbeing Delivery Action Plan is a working document with a range of activities to achieve the outcomes of the strategy.

Joint Strategic Needs Assessment (JSNA)

The JSNA assesses needs based on local intelligence and insight, with clear recommendations for action. The Rutland Health and Wellbeing Board has responsibility for assessing the health and wellbeing needs of their population and publishing the JSNA.

Chapters are produced on a rolling basis, aligned to the priorities set out within the Joint Health and Wellbeing Strategy.

Throughout 2022/23, the following JSNA chapters have been completed and approved by the board:

- Health Inequalities in Rutland
- End of life care
- Oral Health

An updated Pharmaceutical Needs Assessment was also completed and approved by the board in July 2022, which is a statutory duty.

Subgroups of the HWB

Integrated Delivery Group (IDG)

Purpose: Provide leadership, direction, and assurance, on behalf of the Rutland HWB, so that the vision for integrated health and care in Rutland is delivered.

Functions: include proposing the scope for the programmes, driving forward, and leading on monitoring the delivery of the Joint Health and Wellbeing Strategy.

Supports the development of the Rutland Better Care Fund (BCF) Plan and associated metrics. HWB approves the BCF expenditure plan and leads on delivery.

Children and Young People's Partnership (CYPP)

Purpose and Aim: Supports the development and improvement of services for children and young people in Rutland; ensures that children and young people are happy, safe, and successful and empowered to be the best they can be.

Reports to the HWB to ensure that the needs of children, young people, and families in Rutland influence planning for health and wellbeing improvements. It proposes scope for plans and oversees their delivery on behalf of the HWB.

Sub-Groups continued

The Staying Healthy Partnership

Aim: Progress workstreams within the Rutland Health and Wellbeing Strategy delivery plan relating to primary prevention, the wider determinants of health and health inequalities. Work has progressed on the health inequalities workstream, including the development of a Health Inequalities Needs Assessment and Board development session.

Rutland Mental Health Neighbourhood Group

Aim: Lead on driving, coordinating, and enabling mental health transformation, working with the HWB, local authority, local VCS partners and local health organisations.

Objectives: include the creation of a local plan to better coordinate care and deliver an improved response for low level mental health issues. Next steps for the group are to deliver an integrated neighbourhood approach to ensure that mental health needs in Rutland are met.
