Context, including links to Health and Wellbeing Priorities e.g. JSNA and Health and Wellbeing Strategy:

The planning guidance *'The Forward View into Action: Planning for 2015/16'* published by NHS England in December 2014 sets out the framework for delivery of the first year of the NHS *'Five Year Forward View'*. The guidance has been jointly developed by NHS England, Monitor, the NHS Trust Development Authority, the Care Quality Commission, Public Health England and Health Education England. It aims to co-ordinate and establish a firm foundation for longer term transformation of the NHS and will support commissioners and providers to deliver the objectives of the NHS Five Year Forward View.

Key principles of the guidance are as follows:

- Set the scale and pace of transformation
- Differential national approach
- Achieving core standards
- Maximising the value of local planning
- Planning on the local planning footprint – supporting a joint approach

The guidance will inform a refresh of ELRCCGs *'Two Year Operational Plan'* for 15/16. Key areas of focus for the Operational Plan drawn from *The Forward View into Action: Planning for 2015/16* are outlined in the attached Briefing.

Financial implications:

'The Forward View into Action: Planning for 2015/16' is set within the context of financial challenge and recognises the challenge for NHS staff and leaders of delivering high quality care within the available resources is as great as it has ever been.

Recommendations:

That the board:
