DECISION RECOMMENDATIONS

That the Panel:

1. Notes the report.
2. Endorses the approach to development of the new Joint Strategic Needs Assessment and publication of the chapters on Children and Young People; specifically;
 - (a) The Best Start in Life,
 - (b) Children and Young People – Staying Safe and Healthy
 - (c) Achieving Educational Potential.
3. Offers views in relation to the recommendations within the draft chapters pertaining to children and young people.

1 PURPOSE OF THE REPORT

- 1.1 To inform the Panel of the process and development of the new Joint Strategic Needs Assessment (JSNA) and to seek views in relation to areas where further analysis would be helpful in the future; and the draft recommendations made.

2 BACKGROUND

- 2.1 JSNAs are the statutory process by which a Local Authority and Clinical Commissioning Group assess the current and future health, care and wellbeing

needs of the local community to inform local decision making. A JSNA integrates a range of data and topics such as health, housing, transport, employment and education, to identify needs of strategic importance to health and wellbeing.

- 2.2 The purpose of the JSNA is to improve the health and wellbeing of the local community and reduce inequalities for all ages. It should be viewed as a continuous process of strategic assessment and planning with the aim to develop local evidence-based priorities for commissioning which will improve the public's health and reduce inequalities.
- 2.3 It will be used to help to determine what actions Rutland County Council, the local NHS and other partners need to take to meet the health, wellbeing and social care needs, and to address the wider determinants that impact on health and wellbeing. The JSNA informs and underpins the Rutland Joint Health and Wellbeing Strategy.
- 2.4 The last JSNA for Rutland was produced in 2015 and is available on the RCC website at: <https://www.rutland.gov.uk/my-services/health-and-family/health-and-nhs/joint-strategic-needs-assessment/>

3 PROCESS FOR DEVELOPING THE JSNA

- 3.1 A JSNA Reference Group has been overseeing the JSNA process and ensuring the development of the JSNA meets the statutory duties of the Health and Wellbeing Board.

Draft subject-specific chapters have been produced which give an assessment of current and future health and social care needs. The chapters are:

1. Rutland's Population
2. The Best Start in Life
3. Children and Young People – Staying Safe and Healthy
4. Achieving Educational Potential
5. Physical Health of Adults
6. Mental Health of Adults
7. Ageing Well

Each chapter makes recommendations for action in response to the current and future needs identified by the data. The JSNA, and in particular the recommendations, are designed to inform future commissioning decisions. It is not expected to lead to development of specific action plans. An Infographic summary of each chapter will be available online, along with an online data dashboard which will be updated on a quarterly basis to enable users to self-serve high level data requests.

- 3.2 Once the JSNA 2018 is published, it is proposed, (where possible) to update the chapters, when new data is released. The JSNA Reference Group will be re-formed in late 2020 and the status of all chapters will be reviewed at this time.
- 3.3 The 3 relevant chapters for this panel, as outlined in the recommendations section, are attached as appendices A, B and C but all of the draft JSNA chapters can be found at the following link
<https://rutlandcounty.moderngov.co.uk/ieListDocuments.aspx?CId=213&MId=1896&Ver=4>

The Adults and Health Scrutiny Panel will also be considering the draft JSNA at its meeting on 27th September 2018

- 3.4 Any additional and individual comments on the draft should be sent to Dr Katherine Packham, Consultant in Public Health, at Katherine.packham@leics.gov.uk by 5th October 2018.
- 3.5 Approval of the JSNA lies with the Rutland Health & Wellbeing Board. The final version, amended in light of comments and feedback will be taken to the December Board meeting for approval and publication by end December 2018.

4. CONCLUSION AND SUMMARY

The report describes the process for development of the JSNA 2018 and how it is used to determine the current and future health, care and wellbeing needs of the population, and how it is used to ensure local evidence-based priorities for commissioning to improve the public's health including that of children and young people and reduce inequalities.
