DETAILS

Report 09/2022 - Final Revenue and Capital Budget, tabled for this meeting, confirms that Rutland currently holds £7.443m unallocated developers contributions, which include CIL, S106 and Oakham North payments.

Whilst a plan for this money is being developed to support the new Local Plan can members be assured that, where there are any deadlines for spending included within any of these agreements, that procedures are in place to ensure that these contributions will actually be spent by the due dates on infrastructure which will be of benefit to Rutland residents.
