Rutland Local Plan and South Kesteven Local Plan Review
Statement of Common Ground
Rutland County Council & South Kesteven District Council
October 2023

1. Introduction

- 1.1 This Statement of Common Ground (SoCG) has been developed in order to address Strategic Planning Matters between the parties of Rutland County Council and South Kesteven District Council. A map of the area is shown in section 5.
- 1.2 The two Authorities are part of the Peterborough Sub-Region Housing Market Area (HMA) and Functional Economic Market Area (FEMA).
- 1.3 A separate Statement of Common Ground is considered necessary in order to address specific issues that relate to the two authorities regarding their respective development plan.
- 1.4 The Statement sets out the confirmed points of agreement between the parties with regard to:
 - Development of a Strategic Development Area at 'Stamford North' that crosses the administrative boundaries of Rutland County and South Kesteven District;
 - The distribution of housing requirements between Rutland CC and South Kesteven DC; and
 - Infrastructure implications arising from planned growth in the respective Local Authority areas, with particular respect to the Stamford North development.
- 1.5 The purpose of the Statement of Common Ground is to inform the preparation of the Rutland Local Plan and the South Kesteven Local Plan Review.
- 1.6 The Statement of Common Ground (SoCG) provides a framework for compliance with the Duty to Co-operate and obligations arising from Section 110 of the Localism Act 2011 and paragraphs 24 to 27 of the National Planning Policy Framework (2019). The statement is prepared in accordance with the Planning Practice Guidance.

2. Background

- 2.1 Rutland County Council and South Kesteven District Council are public bodies that are the Local Planning Authorities (LPA) for their respective administrative areas. They are prescribed Bodies for the purposes of the Duty to Cooperate.

- 2.2 The development of 'Local Plans' for each Authority has involved ongoing cooperation between the parties in order to ensure that cross boundary and strategic issues are appropriately addressed.
- 2.3 This Statement of Common Ground reflects the agreed position between Rutland County Council and South Kesteven District Council to assist in the preparation of their respective development plans.
- 2.4 The South Kesteven District Local Plan was adopted in January 2020. The Inspector's final report on the current Local Plan (2011 - 2036) commits the Council to undertake an early review of the Local Plan from April 2020. The review enables necessary updates of evidence, and the Council to consider whether its local housing need has changed and needs to be re-evaluated taking into consideration changes to national planning guidance. South Kesteven District Council have completed an Issues and Options consultation and are currently proposing to undertake public consultation under Regulation 18 of the Local Plans Regulations regarding a draft Local Plan review in Winter 2023.
- 2.5 In September 2021, Rutland County Council committed to producing a new Local Plan for the County. It has also undertaken an Issues and Options consultation and is preparing a "Preferred Options" Local Plan for public consultation under Regulation 18 in Autumn 2023.
- 2.6 The Stamford North Urban Extension is a strategic development area that comprises a 153-hectare site, of which approximately 84 hectares is within South Kesteven District and approximately 69 hectares in Rutland County. The South Kesteven Local Plan allocates some 1,350 dwellings on the site and it is proposed that there will be no more than 650 dwellings allocated within Rutland County.
- 2.7 This SoCG commits the two Local Planning Authorities to working jointly to plan for a comprehensive development of the Stamford North site, including – where appropriate –the development of a joint evidence base; development of co-ordinated planning policies; governance of the planning process (including roles and responsibilities); mitigation of risks; and implementation of the joint planning process, including the co-ordination of infrastructure planning, funding, and delivery.
- 2.8 With regard to housing requirements and distribution, the SoCG seeks to agree the position between the parties with regards to meeting the identified housing needs for each authority area. This is on the basis that housing development within the separate two local authority areas of the Stamford North site (total

capacity of 2,000 dwellings) will contribute to each respective authority's housing needs (i.e. the proposed development of 1,350 dwellings within South Kesteven District Council would contribute to South Kesteven's housing needs and the proposed development of 650 dwellings with Rutland County Council would contribute to Rutland's housing needs). There is therefore no requirement on either authority to meet the unmet needs of the other.

3. Areas of Common Ground

Development of a Strategic Development Area at 'Stamford North'

- 3.1 The South Kesteven Local Plan (SKLP) allocates a site of some 153 hectares of land at Stamford North. The allocation seeks to deliver some 2,000 houses (including 650 to be delivered within Rutland's administrative area at Quarry Farm) as well as the necessary supporting infrastructure.
 - 3.1.1 The parties agree that:
 - 3.1.2 The principle of development and associated infrastructure at Stamford North will be considered through the Rutland Local Plan and the South Kesteven Local Plan Review, whilst recognising that an allocation of land is already set out in Policy STM1 of the current adopted South Kesteven Local Plan.
 - 3.1.3 The proposed quantity (1,350 houses within South Kesteven District and no more than 650 houses within Rutland County's administrative area) and extent of the total 2,000 houses is agreed.
 - 3.1.4 With regard to housing requirements and distribution, the development within each local authority area will contribute to each authority's housing needs (i.e., the proposed development of 1,350 dwellings within South Kesteven District Council would contribute to South Kesteven's housing needs and the proposed development of 650 dwellings with Rutland County Council would contribute to Rutland's housing needs).
 - 3.1.5 Development within Rutland County's administrative area will include: a country park; a link road facilitating the east / west connection of the Old Great North Road, Little Casterton Road and Ryhall Road.
 - 3.1.6 Development within South Kesteven's administrative area will include a new link road, connecting Ryhall Road to Little Casterton Road and Old Great North Road (within Rutland's administrative area); a new primary school; expansion and/or improvements of the secondary school; a local centre; contributions to healthcare provision.

- 3.1.7 South Kesteven District Council will work with Rutland County Council to ensure that design principles for the entire site are agreed by both councils, be that through the preparation of a development brief and/or design code, to ensure a comprehensive cross boundary development. It is understood that whilst South Kesteven District Council has the policy basis to adopt any such brief as a Supplementary Planning Document, Rutland County Council will not be able to adopt it until the new Local Plan is in place.
- 3.1.8 Necessary community infrastructure to support the scale of development proposed will be provided within the administrative areas of Rutland County and South Kesteven District and will be agreed jointly by both parties. Provision of infrastructure will be secured either by direct 'on-site' provision or through financial contributions via Section 106/Community Infrastructure Levy (CIL) for off-site provision. Development in South Kesteven District is subject to Section 106 contributions; and development in Rutland County is subject to Community Infrastructure Levy and Section 106. Rutland County Council agrees to consult and reach agreement with SKDC in relation to the funding of infrastructure required to be delivered by statutory undertakers within Rutland County Council and South Kesteven District.
- 3.1.9 It is acknowledged that there is likely to be an impact on the existing infrastructure of Stamford, including schools, public transport, the town centre and health facilities. To ensure the development as a whole mitigates its impact on infrastructure, Rutland County Council agrees to prioritise expenditure of CIL receipts generated by the Stamford North development on projects that are either critical to enable the development to go ahead or are essential to mitigate the impact of the development on infrastructure, including infrastructure to be wholly located within South Kesteven District. It will consult and seek to reach agreement with SKDC through the governance arrangements set out below prior to any decisions made with regard to the CIL receipts generated from the Rutland County portion of the Stamford North development.
- 3.1.10 Joint working will take place at locations outside the immediate site boundary of Stamford North, where necessary, to support and / or enable development within that boundary (for example, necessary infrastructure upgrades).
- 3.1.11 The respective development plans for each party will make appropriate provision to enable the comprehensive development of Stamford North.
- 3.1.12 Measures to mitigate environmental impacts will be jointly pursued. These include: surface water flooding; ecology & biodiversity; geotechnical issues; the

existing movement network across the site, including public footpaths; views to and from heritage assets; and landscape and visual impacts.

- 3.1.13 Measures will be pursued to limit and mitigate any transport impacts, particularly in relation to the A1 which runs to the west of the proposed development.
- 3.1.14 Ongoing discussions will take place between the partners during the development and consideration of planning applications if any material cross boundary issues or impacts are identified in relation to the proposal.

Transport implications for the A1 and Local Highway network

- 3.2 The A1 trunk road falls within the administrative areas of both Rutland County and South Kesteven District. Proposed growth in both authorities (and in particular at Stamford North) has the potential to increase vehicular movements that access the strategic and local highway network. Both South Kesteven District Council and Rutland County Council have carried out transport assessments in order to understand the impacts of proposed growth. The assessments have identified that highway improvement schemes are required to mitigate potential impacts. The findings of the transport assessments have been shared with Highways England, Lincolnshire County Council and Rutland County Council Local Highway Authority.

The parties agree that:

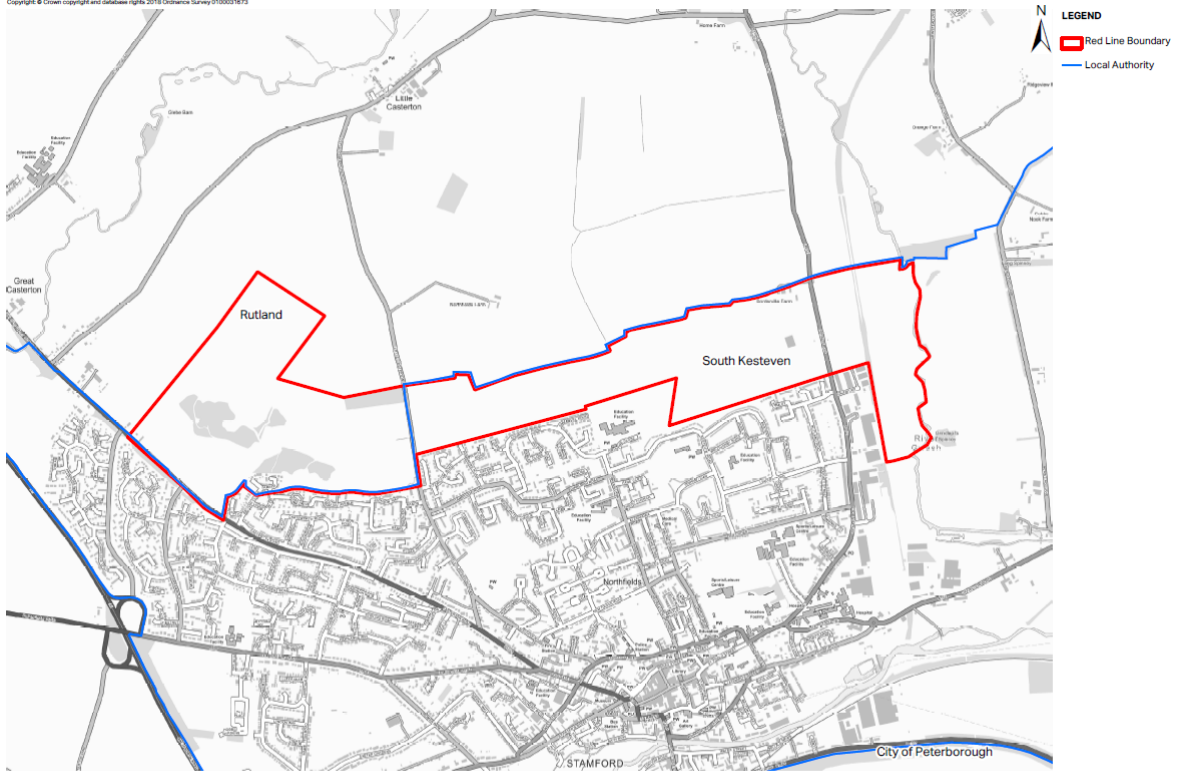

- 3.2.1 Based on available transport evidence, the impact of proposed growth identified within the Rutland Local Plan, when considered cumulatively with growth proposed in the South Kesteven Local Plan, is capable of being mitigated through improvements to links and junctions including improvements to the A1 / A606 junction and provision of a link road facilitating the east / west connection of the Old Great North Road, Little Casterton Road and Ryhall Road.

4.0 Governance

- 4.1 This SoCG commits the strategic planning and democratic resources of both Councils to work together in the joint planning process. The terms of reference for the Project Board to be established are set out in Appendix 1 to this statement.
- 4.2 In terms of governance arrangements the two authorities agree to adopt the principles of open communication and the sharing of information. More specifically both Councils agree:

- That both parties will continue to work together to ensure that the Stamford North development is delivered in a comprehensive way;
- To produce a Project Plan showing key work stages and timetable to align and co-ordinate policy and evidence;
- Align decision-making;
- Seek to reach agreement prior to any decisions made with regard to these specific CIL generated from the Rutland County portion of the Stamford North development;
- To keep each other well informed on both an informal and formal basis of matters arising which are likely to have significant cross-boundary implications;
- To work together to achieve identified outcomes in relation to strategic matters;
- To review and update this Statement in light of any material change in circumstance such as: major changes to legislation or guidance; material changes to policy and strategy in the emerging plans;
- To adopt positive principles of cooperation; and
- Establish a bipartite structure of a Project Board for the purposes of the joint planning exercise and to work together to enable the delivery of the critical infrastructure required to support the level of development proposed across the whole site.
- To work together and ensure agreement of any development brief and/or design code produced (be that by the council or developers). Any such document must be cross boundary, covering the entire site.
