Rutland is a great place to live, learn, work, play and visit. We plan to make it better by:

Delivering, Developing and Supporting existing services:

This Council takes seriously its place shaping role for our County. However we understand that our ability to influence some areas covered by our strategic aims and and objectives may be limited. In many areas the Council will act as a catalyst and enabler rather than being responsible for direct delivery.

The aims and objectives above have been designed in consultation with our partners recognising the significant contribution they make to many of the desired outcomes. The Council does not operate in isolation and the progress in all areas will require strong and effective partnership working.
